

Download Hypnotic Relaxation Therapy

The JetPak Therapy System™ is a revolutionary way to ensure that your spa experience is personalized just for you. Each JetPak® is designed to provide a unique massage with unique wellness benefits. Hypnotic induction is the process undertaken by a hypnotist to establish the state or conditions required for hypnosis to occur. Self-hypnosis is also possible, in which a subject listens to a recorded induction or plays the roles of both hypnotist and subject. Hypnosis is normally preceded by a "hypnotic induction" technique. Traditionally, this was interpreted as a method of putting the subject into a "hypnotic trance"; however, subsequent "nonstate" theorists have viewed it differently, seeing it as a means of heightening client expectation, defining their role, focusing attention, etc. Access every script in Hypnotic World's scripts collection covering more than 1,200 issues. New hypnosis scripts are added weekly and members can use our Request-a-Script service for expert help in client cases., Hypnotic Relaxation Therapy.
