How to Help: The following organizations are devoted to helping educate girls and/or women around the world. Some are large; some small. Some concentrate in one country; others in many. This document is not intended to be exhaustive, rather provide an at-a-glance resource list for people seeking outdoor-based programs for girls, experiential learning program models (broadly) and/or resources to assist with adventure programming for adolescent girls in the outdoors. Adolescence (from Latin *adolescere*, meaning 'to grow up') is a transitional stage of physical and psychological development that generally occurs during the period from puberty to legal adulthood (age of majority). So many labs around the world are involved in this kind of research, and we now have a really rich and detailed picture of how the living human brain develops, and this picture has radically changed the way we think about human brain development by revealing that it's not all over in early ...
