We're told that the next Canon EOS R camera is already field tested by a small group of selected photographers. The next Canon EOS R camera will have a high resolution sensor. The triple camera system at the back comprises a 48MP sensor with an f/1.75 lens, a 12MP with an f/2.2 telephoto lens, and a 16MP sensor with an f/2.2 ultra-wide-angle (UWA) lens. Image resolution is the detail an image holds. The term applies to raster digital images, film images, and other types of images.
