

# Download Joey The Motor Home Mouse

I am so grateful that George Griggs, Scott Westerman and Jim Feliciano have joined forces to bring back all the great Motor City radio memories we grew up with. If there are screws on the bottom of the mouse you may have better luck with unplugging the mouse and remove them. Depending on the model of mouse you have the buttons may be attached to the upper section and the electronics and cord attached to the lower. I don't see the Narconon (maybe SIC) jingle on here "The Way Out". I just got a new Generac ix2000 (4 stroke, 2000 watt generator). It's a great looking generator, looks and feels very well built! Definitely feels better than the Honeywell 2000i that I have, which wasn't bad, hard to start, but ran great., Joey The Motor Home Mouse.
